

Sport handgun shoots are held on the 1st. and 3rd Saturday afternoons from 13H30 every month. Currently the 3rd. Saturday is only used if for some reason the 1st. is unavailable i.e.it clashes with a club event or inclement weather.

The shoots consist of a mixture of standard exercises and practical pistol exercises involving paper targets and falling plates.

As it is an informal section any handgun, be it semi-auto or revolver, maybe used but preferably of a calibre greater than .22rf. The amount of ammo used is usually 60 plus however in the view to keeping it affordable a shooter can fall out at any point .

At the end of the handgun sessions we organise a short nine round shot gun session. For this again, any shot gun, be it S/S O/U pump or semi, maybe used. This is not a clay shoot as it involves knock down targets only.
